POETRU.

IN THE LONG AGO.

BY GEORGE MELNOT GRUMMOND.

On the soft green banks

Of a lakelet still,

Where the mirage comes

And goes at will,

Breathes soft and low

That break and blow

And dream of thee.

And thy fair young face,

And thy deep blue eyes,

For your touch once more,

At the half-drawn door;

Where the scented air

On the lilly's leaves,

In the cooling shade Of an orange tree,

Yes, dream of thee

Of thy ringing laugh

Of thy rose-bud lips

Or lingers yet

And I often long

In whose tender depths

In a liquid glow, Like the dying shade

Of an after glow.

And the good-night kiss

And the whispered words, So low and dear,

On my ravished ear.

When hope and love Gleamed like the light

Of the stars above.

Grown bleak and small,

But now has the world

And vainly for thee

I cry and call;

Ah me! ah me!

Of the restless sea;

The cold stones break.

From this fierce heart-pain;

And our lips no more

At the half-drawn door,

Will your soul arise

Of your starry eyes.

And our weary feet

Those paths so sweet.

When you were mine

With a love divine.

A branch is seen.

For the wide, wide world

Comes in between.

And we both have found

Without sweet love

But never again

Of the golden days

Detroit, May 22, 1879.

In the long ago.

That those glories sought

Will come to nought: And our weary hearts

May sob and moan For the vanished light Of the days now flown;

Shall we see the glow

STORY TELLER.

A STORY OF NO MAN'S LAND.

[From Harper's Magazine.]

That never again

Will I find sweet rest

For we've parted, love,

Will meet in bliss

And never again

In the radiant light

Aye, we've parted, love,

Will tread no more

That in other days

Were all ablaze

But now not even

But the answer I get,

Is the dreary moan

Or the sobbing voice Of the little lake,

Whose wavelets over

And so I know

Oh! those were the days

That like music fell

The love-light dies,

And modest grace,

Awake I lay

We notice from our exchanges that the people of numerous cities and towns in various portions of the State are making strenuous efforts to secure the institution. Our people should offer the State every possible inducement to build the institution here. We notice that the people of Findlay are especially desirous to have the institution located at that place. The following in relation to the matter is taken from the Jeffersonion of that village:

"A new deaf and dumb institution is to be established in this section of Ohio during the coming year, and efforts are being made by the citizens of Findlay to have it located here. To this end a legislative committee of about forty members will visit our city some time next week-on Friday, it is cide to locate in this vicinity, a donation of forty acres of land will probascriptions can easily be raised.

"Abide in Me And I in Thee."

BY FLORENCE FAITHFUL. "Where I am Thou shalt be also." This indeed is promise sweet, But more precious that commandment

Which in Thy holy word we meet; "Abide in Me;" O blessed Saviour! Let this bliss to me be given, Then my life were worth the living, It were a foretasto of heaven.

Keep me ever, dear Redeemer, "As the apple of Thine eye," "When temptation's darts assail me" "Let me to Thy bosom fly," But still more than this I pray Thee, O, Thou Pattern for our guide, Leave me not exposed to danger, Let me aye in Thee abide.

There, and there alone is safely, Let my lot be what it may, Live in me and by Thy spirit Guide "Unto the perfect day." In my heart's most sacred recess Help me keep a place for Thee, Then I know Thou'lt never leave me, But for aye "Abide in me."
